To whomsoever it may concern

I am a 79 year old senior citizen.

When I moved into my new redeveloped house, I moved in with a lot of old memories and stuff from the past, including unfortunately cockroaches.

On the suggestion of my son-in-law, Gautam Amladi, I enlisted the services of Shri Zahid Shaikh, of A to Z Pest Control, for emergency measures, as Ganesh Chaturthi was fast approaching.

Zahid took prompt action, sent in his people, and in 2 rounds of treatment, solved my problem. This was around September 2012.

I am happy to state the problem was solved and we installed the Ganesh Murti in a pest free environment. The pest free house made me even forgot about the repeat service till we received a call from his office asking for a suitable date & time.

I wish Shri Zahid all the very best success in his professional ventures, and if an opportunity arises I would have no hesitation in suggesting his name to anyone for Pest Control work.
